COMPANY

G-SOLUTIONS

PASAPORTE

Our Approach

Our **MOBILITY SOLUTIONS** are designed using official Immigration by Investment Programs based on actual articles of law in the countries offering them. They are all conditional upon the performance of a certain investment in a spectrum of choices that range from financial to real estate to corporate, leading to one of two levels of **MOBILITY** in terms of “Peace of Mind” and “Visa-Free Travel Reach”:

GLOBAL MOBILITY

CITIZENSHIPS & PASSPORTS

Considered of great value given the **HIGH** “Peace of Mind” they naturally provide, as well as their **WIDE & UNCONDITIONAL** “Visa-Free Travel Reach”.

REGIONAL MOBILITY

RESIDENCIES

Considered of relatively lesser value given the **LOWER** “Peace of Mind” they provide, as well as their **LIMITED & CONDITIONAL** “Visa-Free Travel Reach”.

They all, however, embody pros and cons and, as such, are subliminally designed by the Countries offering them to attract investors with specific profiles, which we identified and hereby put at your disposal allowing you to unravel your **G-PROFILE**.

We make sure that the investment and program you choose fit your very own **G-PROFILE** and indeed constitute a **G-SOLUTION** for **YOU** and **YOUR FAMILY**.

Unravel your G-Profile

It's all in the compatibility between your nature as an **INVESTOR** and that of your **ENDGAME**.
Very similar to the agreeableness between a **RUNNER**'s natural physical attributes and the **FINISH-LINE**.

Do you have a short **ENDGAME** and want fast closure?

If you do, you're a **SPRINTER**

Do you have a short **ENDGAME** but can sustain a runoff period?

If you do, you're a **RACER**

Do you have a long **ENDGAME** and are ready for the long haul?

If you do, you're a **MARATHONER**

Do you even have an **ENDGAME**?

If you don't, you're a **JOGGER**

Do you have more than one **ENDGAME**?

If you do, you're an **ATHLETE**

Find out before you make the **WRONG INVESTMENT!**

Let our **G-SYSTEM** work for you.

Are you a **Sprinter**?

In Running...

- Little Energy
- Quick Burst
- Short Endurance
- Focused on crossing the Finish Line, but stops the second it is done

In Mobility Investment...

Sprinters know exactly what they want... They want it fast but, most importantly, they want total closure after fulfilling their goal.

If you are a **Sprinter**, we have an array of **G-SOLUTIONS** that fit your **G-PROFILE**, meet your budget, shorten your journey and then set you free.

They all lead to the **GLOBAL MOBILITY** of a European or Caribbean **CITIZENSHIP & PASSPORT**, or to the **REGIONAL MOBILITY** of a Schengen **RESIDENCY**, depending which of the two is your goal.

NONE

Are you a **Racer**?

In Running...

- More Energy
- Comparable Burst
- Slightly Longer Endurance
- Focused on crossing the Finish Line, but conserves energy for a victory lap before coming to a full stop, even if it means running longer than necessary

In Mobility Investment...

Racers also know exactly what they want... They want it fast, but also want financial returns after having fulfilled their goal, even if it means locking their investment for a specific period of time.

If you are a **Racer**, we have an array of **G-SOLUTIONS** that fit your **G-PROFILE**, meet your budget, shorten your journey and give you the **RETURNS** you require for a runoff period before exiting your investment at your convenience.

They all lead to the **GLOBAL MOBILITY** of a European or Caribbean **CITIZENSHIP & PASSPORT**, or to the **REGIONAL MOBILITY** of a Schengen **RESIDENCY**, depending which of the two is your goal.

DELAYED

Are you a **Marathoner**?

In Running...

- High Energy
- Slow Burst
- Long Endurance
- Focused on crossing the Finish Line, and has little regard for the stages and the time it takes to reach it

In Mobility Investment...

Marathoners are essentially driven by a genuine long term relocation decision. They are keen on fructifying their investment – financially and non-financially – and look for placements that appreciate over time, until they reach their goal.

If you are a **Marathoner**, we have an array of **G-SOLUTIONS** that fit your **G-PROFILE** and meet your budget.

They all lead to the **REGIONAL MOBILITY** of a Schengen **RESIDENCY**, which itself then carries you to the final goal of **GLOBAL MOBILITY**, after having fulfilled the time and other requirements of your chosen **CITIZENSHIP & PASSPORT**.

Are you a **Jogger**?

In Running...

- High Energy
- Slow Burst
- Long Endurance
- Couldn't care less about a Finish Line...
Runs for joy or necessity, generally in the same neighborhood following the same or different routes, and quits only when running no longer serves those purposes

In Mobility Investment...

Joggers seem **UNSURE** of their future plans when, in fact, they have **NONE** and want to keep their options open. They have frequent or sporadic travel requirements, mostly around Europe, and if an affordable, tangible, fruitful and effortlessly liquefiable investment simplifies those, why not?

If you are a **Jogger**, we have an array of **G-SOLUTIONS** that fit your **G-PROFILE** and meet your budget.

They all lead to the **REGIONAL MOBILITY** of a Schengen **RESIDENCY**, which you can renew indefinitely as long as you maintain your investment.

Are you an **Athlete**?

In Running...

- High all around Physical Fitness
- Likes to Sprint
- Runs Marathons
- Enjoys Jogging
- Practices many physical activities for competition, for necessity or, very simply, for fun

In Mobility Investment...

Athletes also seem **UNSURE** of their future plans when, in fact, they have **MANY**, thus having multiple goals, which makes them prone for conflict situations at one or more junctures of their journeys.

If you are an **Athlete**, we are equipped to tailor **G-SOLUTIONS** that fit your particular and very unique **G-PROFILE** and meet your budget.

You are unpredictable, but we love you the most because we consider our ability to first identify you, and then serve you, as the crown jewel of our professional capabilities. We design your **G-SOLUTIONS** in the form of a portfolio of balanced investments with built-in redundancy to circumvent your capriciousness, thus ensuring a smooth and unencumbered ride for you and your family towards the types and levels of **MOBILITY** you require.
