UNLOCK GLOBAL BORDERS

COMPANY PROFILE

PASAPORTE

Our Spark

AMER C. KHADRA

WALID N. LYAN

Our story begins in 1990 with Amer Khadra and Walid Lyan – perfect strangers at the time – attending the same university in Boston.

The date-year is significant as it coincides with the signature of the **Convention for the Concrete Implementation of the Schengen Agreement** signed 5 years earlier between Germany, France, Belgium, Luxembourg and the Netherlands.

The news event revitalized the topic of **Abolishing Borders on a Global Level** within the student body, in which the dominating opinion was, as always in such venues, somewhat romantic in nature:

*“Down with all borders!
Freedom of movement for all! etc...”*

In such settings, our two founders’ opinion stood out as unpopular, to say the least:

“Every Man for Himself”.

Provocative? Yes, but unintendedly so...

Visionary? Most definitely...

02

Our Vision

01

Amer and Walid built their **VISION** on the undeniable truth that even if all +200 countries concerned use a true, honest and

REALPOLITIK

approach to replicate the Schengen model on a global level, the time alone required to conclude such an endeavor makes it

UNLIKELY,

to say the least, in any foreseeable future.

02

In the meantime,

CITIZENSHIPS will be indexed according to the “Peace of Mind” they provide, and

PASSPORTS will be indexed according to their “Visa-Free Travel Reach”;

thus turning **MOBILITY**, in the broad sense of the word, into a **COMMODITY** with a market price determined by the microeconomic model of supply and demand.

03

Essentially then, the question for every individual will be one of

DESIRED MOBILITY LEVEL

vs.

BUDGET,

and the answer can be nothing but

PERSONAL

for each, hence the **VISION...**

Equipped with their shared pragmatism, our founders set out to understand how to

UNLOCK GLOBAL BORDERS

for individuals and families who can afford it, and succeeded to streamline flexible

MOBILITY SOLUTIONS

based on otherwise inflexible official Immigration by Investment Programs.

“*Every Man for Himself*”

The Rest is History...”

Our Now

- ✓ **1 CENTRALIZED PLATFORM**
- ✓ **5 SERVICE CENTERS**
- ✓ **20 MARKETS**

Today, we assist Globally-Oriented Individuals and Families in identifying or customizing the most creative, innovative and profitable

MOBILITY SOLUTIONS

through Residency and Citizenship by Investment Programs, with

100% SUCCESS RATE.

Our Etymology

Our name is inspired from “**GLOBAL**” with the suffix “**IA**” translated from Latin as “land of”.

Many countries were named with this suffix to define their nation around a particular people or a certain geographical location – “Land of the Rus” is Russia for example, and “Land of the South” is Australia – “australis” meaning “southern”.

Since we cater to all people everywhere, we decided to promote our services under the commercial name

GLOBALIA

where everyone can come and lay claim for the entire globe as their very own

INDIVISIBLE LAND.

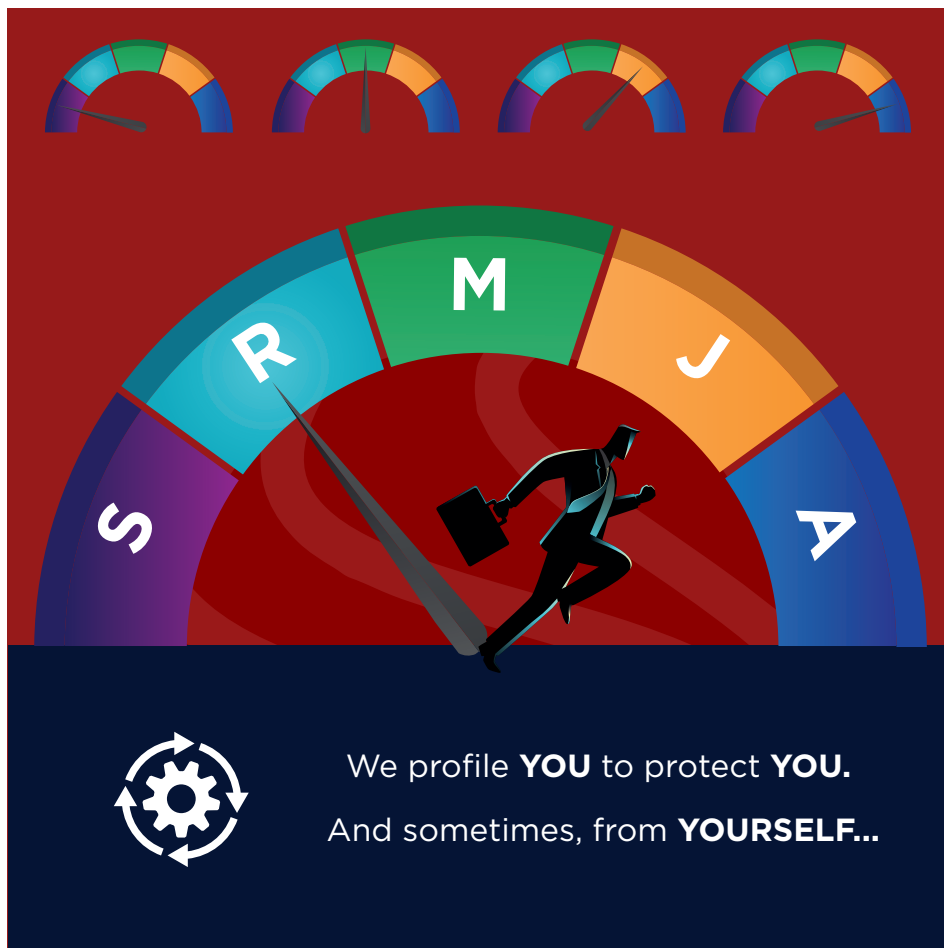

Our Mission

Our mission is to **DEMOCRATIZE MOBILITY** by
UNLOCKING the **GLOBAL BORDERS** that constrain it.

ONE INDIVIDUAL... ONE FAMILY... ONE INVESTMENT... at a time.

Our G-System

We internally designed, developed and meticulously weighed and calibrated our own **GAUGE** that combines and measures the financial and non-financial risk indices of investors and determines their **G-PROFILE**.

We call it the **G-SYSTEM**, and we use it to personalize our service and customize our **MOBILITY SOLUTIONS** by assigning to every file a **G-ADVISOR** with a **G-PROFILE** similar to that of the investor, but with opposite particular risk indices.

MOBILITY SOLUTIONS are essentially journeys with non-financial endgames. They do, however, carry a financial dimension, which entices investors to have returns expectations. We, accordingly, ensure that profile compatibility and risk ponderation are both present at the decision table, for them to be optimal.

TRUE G-SOLUTIONS

taylor-made to maximize the investors' **WALLET** component in terms of Profitability and Capital Appreciation, without jeopardizing their **MOBILITY** component in terms of "Peace of Mind" and "Visa-Free Travel".

Our Team

We are firm believers in the saying...

***Don't Talk the Talk unless you
can Walk the Walk.***

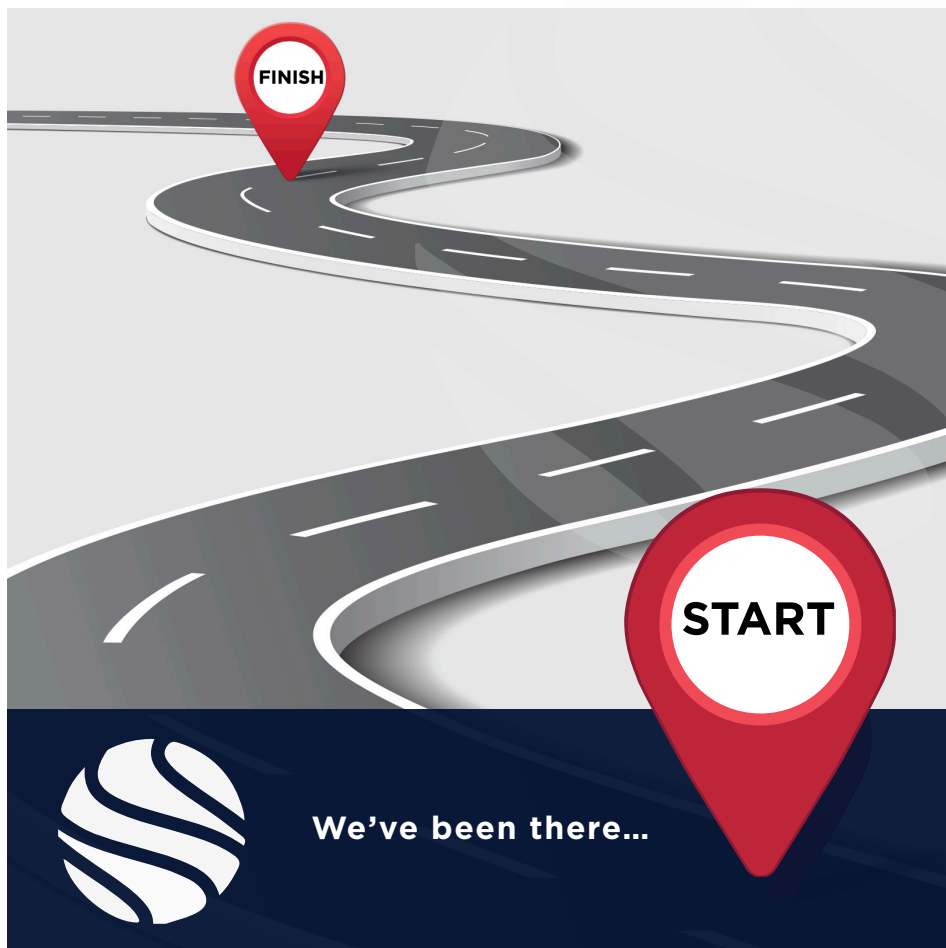

The cornerstone of our professional services is human capital, so we make it a point to continuously enrich our advising team with ex-investors;

TRUE G-ADVISORS

who have all walked the walk and have, humbly, earned the right to talk the talk.

At **GLOBALIA**, we have neither customers nor employees...; just associates who happen to move from the investor's chair on one side of the table to the advisor's chair on the other side.

Our Edge

At **GLOBALIA**, we have **ALL** made our **MOBILITY** journeys, experienced their bumpiness and know only too well the value of a helping hand through some of their challenging stages.

Our philosophy is **RESULT-ORIENTED** with loyalty only to the investor's endgame, and we are proud to be exclusive to no particular Immigration by Investment Program. To us, they are all mere vehicles – means to an end – the investor's end, and we never let go until that end is reached.

Our true edge lies in the END-TO-END service we provide.

Our **G-SYSTEM** allows us to draw personalized journeys for the investors with a **START-LINE**, which they are comfortable with, and a pathway they can traverse.

Our result-oriented philosophy, on the other hand, drives us to shadow their every move until they cross their desired **FINISH-LINES**.

Our G-Solutions

Our **MOBILITY SOLUTIONS** are designed using official Immigration by Investment Programs based on actual articles of law in the countries offering them. They are all conditional upon the performance of a certain investment in a spectrum of choices that range from financial to real estate to corporate, leading to one of two levels of **MOBILITY** in terms of “Peace of Mind” and “Visa-Free Travel Reach”:

GLOBAL MOBILITY

CITIZENSHIPS & PASSPORTS

Considered of great value given the **HIGH** “Peace of Mind” they naturally provide, as well as their **WIDE & UNCONDITIONAL** “Visa-Free Travel Reach”.

REGIONAL MOBILITY

RESIDENCIES

Considered of relatively lesser value given the **LOWER** “Peace of Mind” they provide, as well as their **LIMITED & CONDITIONAL** “Visa-Free Travel Reach”.

They all, however, embody pros and cons and, as such, are subliminally designed by the Countries offering them to attract investors with specific profiles, which we identified and hereby put at your disposal allowing you to unravel your **G-PROFILE**.

We make sure that the investment and program you choose fit your very own **G-PROFILE** and indeed constitute a **G-SOLUTION** for **YOU** and **YOUR FAMILY**.

Unravel your G-Profile

It's all in the compatibility between your nature as an **INVESTOR** and that of your **ENDGAME**.
Very similar to the agreeableness between a **RUNNER**'s natural physical attributes and the **FINISH-LINE**.

Do you have a short **ENDGAME** and want fast closure?

If you do, you're a **SPRINTER**

Do you have a short **ENDGAME** but can sustain a runoff period?

If you do, you're a **RACER**

Do you have a long **ENDGAME** and are ready for the long haul?

If you do, you're a **MARATHONER**

Do you even have an **ENDGAME?**

If you don't, you're a **JOGGER**

Do you have more than one **ENDGAME?**

If you do, you're an **ATHLETE**

Find out before you make the **WRONG INVESTMENT!**

Let our **G-SYSTEM** work for you.

Our Partners

We believe in professional synergy in order to deliver the **BEST**.
So we partner with the **BEST...**
